KEY LARGO, FL 33037

November 22, 2002

Dear MultiQuest 900 Service Customer,

This is a special reminder notification that as previously communicated, effective January 1, 2003 AT&T will no longer provide billing services for any 900 numbers. We will continue to provide "transport only" service, unless you notify us that you wish to disconnect transport service. With "transport only" service AT&T will continue to carry calls through our network, however you will need to engage a third party billing company to perform the billing and collections for the 900 calls. Monthly recurring charges and usage charges apply for transport service.

If you choose to discontinue transport service, pursuant to the terms and conditions in the AT&T Business Service Guide, the order to discontinue service must be received by AT&T one month prior to the day on which the service is to be discontinued. Monthly recurring charges apply for that period from the date AT&T receives the discontinuance notice or until the requested discontinuance date, whichever is later.

AT&T needs to be informed of your decision to discontinue service no later than **December 1, 2002**, in order to avoid transport charges being billed after December 31, 2002. There is a customer direct order form attached in which you may notify us by December 1, 2002 via e-mail (rm-mq_esors@ems.att.com) or fax (847-952-2488) or by U.S. mail.

If you will be continuing with transport service please complete the customer direct order form and indicate to us if there are any customer specified blocking requirements. We will no longer automatically block all of the small Independent Telephone Companies that were previously blocked.

If you have any questions, please contact your Sales Representative at 1-800-323-6672, prompt 2.

Sincerely,

Laurie Brown
MultiQuest Product Manager

Re: Notice of Termination of Billing Services

Dear Mr. Keever:

Please be advised that AT&T intends to terminate MultiQuest (900) billing services for the programs identified by the presale numbers and associated 900 numbers listed on the attachment ("Affected Programs"). The basis for this termination, its effective date, and other information are provided below.

Under Section 7.A. of the Agreement between your company and AT&T, it is stated that "Either party may terminate this Agreement or the Billing Services for one or more particular Customer Programs upon thirty days prior written notice to the other party specifying the exact date of such termination." This provision allows either party to terminate billing services for any Customer Program for any or no reason upon the giving of the required notice. Accordingly, pursuant to Section 7.A., please be advised that AT&T will terminate billing for the Affected Programs (45) calendar days from today, which will be July 22, 2002.

In addition, Section 7(C)(4) and (5) of the Agreement states, "AT&T may immediately terminate this Agreement, or the Billing Services for one or more particular Customer Programs, if AT&T in its sole discretion determines that: (4) Customer (or Customer's information provider or other customer) has not complied with the current Guidelines, regardless of whether AT&T has previously reviewed or released the particular Programs or advertising; or (5) Customer has breached this Agreement."

AT&T has determined that the Affected Programs are modem-to-modem applications. These programs were approved by AT&T as various voice programs. Under the Billing Guidelines, Web Applications have price and blocking restrictions that you are not adhering to, as well as your current programs have not been approved by AT&T. This represents a separate and independent basis under which AT&T is terminating its billing for the Affected Programs.

While AT&T will not continue to provide MultiQuest billing services for the Affected Programs after the Termination Date, it will permit you to continue to use these 900 numbers under either of two alternatives. First, you may request that AT&T provide MultiQuest "transport only" services to you, under which you use billing services you obtain from a third party. Alternatively, you may request that AT&T provide billing services pursuant to our current Agreement using these 900 numbers for the programs that were previously approved and are in compliance with AT&T's current Guidelines and our agreement. Should you wish to pursue either of these alternatives, please notify your Sales Representative, Linda Reines, no later than (fifteen) calendar days from today at 800 323-6672, prompt 2, extension 2865, or in writing or via e-mail. If you wish to provide new programs on the numbers and use AT&T billing services, please provide new preambles, scripts and advertising so that AT&T can qualify your programs by that date as well.

Please note that, under AT&T's new policies regarding MultiQuest as announced in its December 1, 2001 notification letter to customers, AT&T will not provide billing services for new 900 numbers after January 1, 2002, and will cease providing billing services for all programs effective December 31, 2002. These policies will apply to any new programs that you request be placed on the numbers currently used by the Affected Programs, and therefore if you request that AT&T continue to provide billing services for proper Programs within the fifteen day period specified above you will be eligible to receive billing services on these numbers through December 31, 2002 (assuming appropriate contracts are in place and all other requirements are met). If however, you do not request continued billing services for proper Programs within the specified period, any future requests for AT&T billing services on these numbers will not be accepted.

Please contact your Sales Representative if you have any questions about this letter
Thank you.

Sincerely,

Carole Lukens
Presale and Compliance Manager

LONG BEACH, CA 90804

Dear MultiQuest Customer,

I am writing to inform you of a change in AT&T MultiQuest policies, as well as certain updates to our Premium Billing Guidelines.

Effective January 1, 2002, AT&T will no longer provide billing services for new 900 numbers. For all 900 numbers that are currently in service and active as of December 31, 2001, AT&T will continue to provide billing services pursuant to its outstanding contracts. However, effective January 1, 2003, AT&T intends to cease providing billing services for existing numbers. Henceforth, AT&T will not be issuing contracts with expiration dates after December 31, 2002. To the extent customers have contracts with expiration dates after December 31, 2002, please regard this letter as notice under Section 7.A. of the contract, or Section 7.C. of contracts entered into prior to May 1996 that include the letters QJ as part of the contract number, that AT&T is exercising its right to terminate the agreement on December 31, 2002.

Throughout the year 2002, Customers will be able to make changes to their existing 900 numbers without having their current billing services affected. However, customers who are on the receiving end of a transfer of service will not be permitted to place the transferred 900 number(s) under their existing billing agreements. In these instances, numbers acquired through a transfer of service will be set up under a separate, new contract.

AT&T MultiQuest 900 Services will continue to provide transport services for all programs, both before and after December 31, 2002, and will continue to provide new 900 numbers on a transport-only basis after January 1, 2002.

Additionally, effective immediately, page 24 of our Premium Billing Guidelines has been added to reflect changes to the "Web Applications" discussion. The change is that the following states must be blocked for these applications: Arkansas, Oklahoma, Kansas, Missouri, Texas,

California, Nevada, Indiana, Ohio, Wisconsin, Illinois, Michigan and Connecticut. If you have existing programs that fall into the category of Web Applications, you must block in these states immediately. If you require AT&T to perform the blocking, please contact our MultiQuest Sales and Support team at 1-800-323-6672, prompt 2.

For future Web Applications you will be required to submit in writing, along with all other appropriate paperwork, a statement explaining how blocking will be performed.

Additionally, a new section 13 has been added to the "General Requirements" section of the guidelines, and states that billing services will not be available for:

"13. Any program where a caller is directed to dial an international telephone number, or is directed to an 800, 888 or other telephone number which advises the caller to dial an international telephone number is prohibited."

Should you have any questions concerning these new policies, please contact
1-800-323-6672, prompt 2.

Thank you.

Ann Aloia
